**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 fails to recite any structure which supports the functional recitation of "the apparatus mounts to the drum." Correction is required.

Claims 1-6,8-20 are allowed.

Claim 7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach emission and detection of radiation substantially parallel to a head of a drum.
